NEW!
The Maestro
 CONDUCTOR'S PODIUM

Step up to a new level of performance.

Conduct yourself in the most professional manner possible, thanks to StageRight's versatile, heavy-duty Conductor's Podium. The durable one piece construction includes a built-in guardrail and chairstop for safety. The podium is available in 6" or 12" heights.

It's carpeted for quiet performance and the frame, of course, allows for a portable music stand. The design tapers for more performing room in front, yet folds to store in half the space of other units. Integrated caster allows easy transportation from storage to practice to performance.

→ Carpeted for quiet performance with space for a portable music stand. Tapers for more room in front, yet stores in half the space of other units.

-  Set up in minutes
-  Sturdy, with no tools required
-  Unsurpassed customer service

Conductor's Podium

Features and Benefits

Safe to Use

- Built-in guardrail ensures safety
- Chairstop keeps chair securely in place
- Sturdy performance at extended heights

Carpeted Surface

- Stays quiet during your event

Heavy Duty Steel/Polycarbonate Construction

- Durable
- Long-lasting
- Sleek and professional-looking
- Integrated casters

Simple to Store

- Folds into itself for hassle-free storage
- Takes up half the space of other leading podiums
- All pieces are integrated with no separate pieces to store
- Integrated casters for easy transportation to and from storage

Easy to Transport

- Can be moved all as one piece: no separate pieces to carry
- Tapered design allows for greater range of movement
- Non-marking polyurethane casters will not scuff or mark up the performance floor.

Technical Specifications

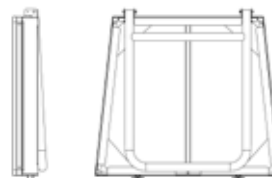

Function Allows performers to see the conductor more clearly. This one unit includes built-in extensions allowing flexibility in the conductor's height.

Set-up Podium can be moved as one piece - no separate parts to handle. Simply roll the podium into place, raise the handrail, release the built in extensions, if needed, and start conducting. The built in handrail ensures safety and acts as a chairstop.

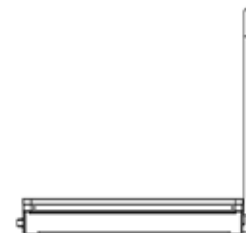

Low Maintenance Black Powder-coat finish keeps your podium looking newer longer. Commercial-grade polyolefin is constructed to handle heavy traffic without damaging.

Construction Podium shall be constructed of extruded 6005-T5 Aluminum and ASTM A36, ASTM A512, ASTM A500. Platform shall be constructed of plywood core covered with commercial grade polyolefin carpet. Casters are made of non-marking polyurethane that will not scuff or mark up your performance floor. Podium shall be finished with black baked-on powder-coated finish.
